**3. NOTIFICATION AND AUTHORISATION**

The *Commission de Surveillance du Secteur Financier (CSSF), Luxembourg*, has provided the *Finansinspektionen*, Sweden, with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Directive.

The Issuer and the Guarantor have authorised the use of these Final Terms and the Base Prospectus dated 21 April 2011 by the Dealer/Managers and the entities in charge of the distribution of the Notes (the **Distributors** and, together with the Dealer/Managers, the **Financial Intermediaries**) in connection with offers of the Notes to the public in Sweden for the period set out in paragraph 13 below.

**8. PERFORMANCE OF INDEX/FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING**

**APPLICABLE FINAL TERMS****CONFORMED COPY****THE UNDERLYING (Index Linked Notes only)**

Under these Notes, the Noteholders are entitled to receive indexed coupons totally linked to the performance of the Underlying(s) calculated on annual Valuation Dates, on the basis of its initial level. At maturity, the Noteholders are entitled to receive an amount totally linked to the performance of the Underlying(s). The actual redemption date of these Notes is directly related to the performance of the Underlying(s): the better the performance, the sooner the redemption date and conversely, the worse the performance and the later the redemption date. The return under these Notes is totally linked to the performance of the Underlying(s): the higher the performance, the higher the return. The return depends upon the fact that the performance of the Underlying(s) reaches or does not reach a pre-determined threshold. Accordingly, a small downward or upward movement of the Underlying(s) close to the threshold may result in a significantly larger increase or decrease of the return of the Notes. Only the performance of the worst performing Underlying(s) will be retained for the calculation of the performance. Accordingly, the Noteholders may not benefit from the performances of the best performing Underlying(s). The return of these Notes is linked to the performances of the Underlying(s) as calculated on pre-determined Valuation Dates, and regardless of the level of such Underlying(s) between these dates. As a result, the Closing Price of the Underlying(s) on these dates will affect the value of the Notes more than any other single factor. Under these Notes, at maturity, the Noteholders may not receive the amount initially invested. Noteholders are entitled to receive a Final Redemption Amount which may, in case of an adverse evolution of the Underlying(s) during the term of the Notes, be significantly lower than the amount per Note initially invested.

Pursuant to the provisions of the Equity Technical Annex, upon the occurrence of certain Extraordinary Events and Adjustments affecting the Underlying, the Calculation Agent may decide an Early Redemption of the Notes on the basis of Market Value.

The Notes may be redeemed early in the event that the outstanding nominal amount is reduced to or falls below 10% of the initial nominal amount of such Notes.

In such event the Issuer will have the option to redeem any outstanding Notes early upon giving not less than 15 Business Days notice. This could lead to investors receiving an amount at redemption earlier than had been anticipated in circumstances over which the investors have no control and may affect the value of their investment.
